

**Jesień
Linuksowa**

22nd EDITION

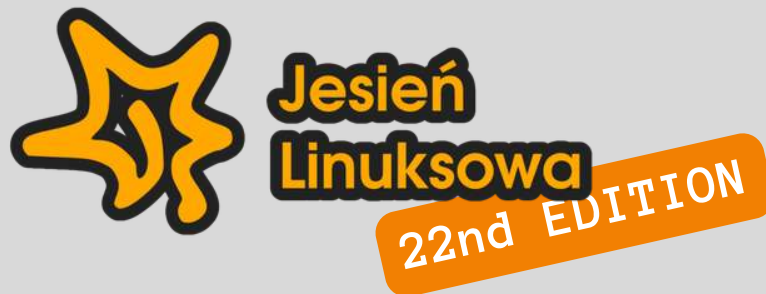

Sponsorship Offer 2026

23–25 October 2026

Hotel Kolna, Kraków

GENERAL INFORMATION

Linux Autumn is **Poland's longest-running active conference dedicated to Linux and free software**. For years, it has attracted open-source enthusiasts, programmers, administrators, and GNU/Linux users. Over the course of three days, participants attend lectures, workshops and discussion panels led by experts and community members. The programme covers a wide range of topics, including programming, network administration, DevOps, hardware, infrastructure, AI, security, hacking, online privacy, open-source gaming, digital sovereignty, and the legal and social aspects of FLOSS.

Organised by the **Polish Linux Users Group (PLUG)**, the conference will take place at **Hotel Kolna** in **Kraków**. After the main part of the conference, participants spend their evenings talking, sharing experiences and socialising in a relaxed setting. This provides a valuable networking opportunity to meet like-minded individuals and build relationships within the open source community.

OUR PLAN

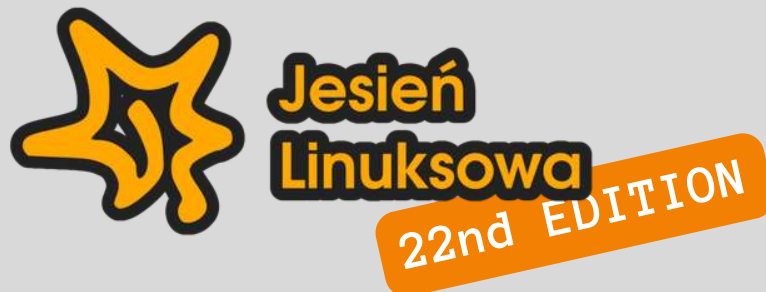

Linux Autumn has consistently strengthened its reputation over the years as one of **the most recognisable conferences in Poland dedicated to free and open-source software**. Each edition attracts an ever-growing number of participants and respected IT industry experts. In recent years, our stage has hosted, among others, **Jakub Mrugalski**, **Gynael Coldwind**, **Arkadiusz Wieczorek** and **Kuba Orlik** (Internet. Time to act! Foundation), as well as **Sylwia Czubkowska**.

This year, we are moving the conference to **Hotel Kolna** in **Kraków**, located in the picturesque surroundings of the **The Bielany and Tyniec Landscape Park**. The new location will provide even greater comfort for participants, better infrastructure and more space for taking part in the event.

Following the tradition of previous editions, the programme includes **lectures, workshops, lightning talks** and **evening socialising** in a relaxed atmosphere. We will invite speakers from both Poland and abroad to create a space for exchanging knowledge, experiences and establishing valuable connections.

All lectures will be promoted on our social media channels, and each presentation will be professionally recorded and made available on **YouTube** and **PeerTube**. Thanks to this, the content presented during the conference will also remain available after the event, reaching a wide audience.

We encourage you to familiarise yourself with **the sponsorship packages** below. This is an excellent opportunity to present your brand within the open-source software community, reach an engaged community of specialists and support the development of one of the longest-running and most recognisable FLOSS conferences in Poland.

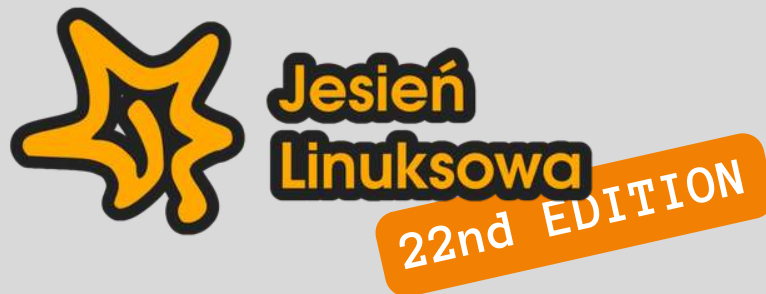

PLATINUM PACKAGE

10 000 PLN net

- the title of **Platinum Sponsor of Linux Autumn 2026**, awarded on an exclusive basis (we only accept one such title per edition);
